

## Reference card

# MONDELÉZ, POLAND Skarbimierz

### MONDELEZ Poland

The newest Cadbury plant constructed in Poland is the company's most modern plant in the region and will provide European markets with chewing gums. The enterprise generated 300 new jobs and contributed to making Poland, currently hosting three Cadbury plants and more facilities under construction, the company's major distribution centre in Europe.

The plant, located in Skarbimierz, is the latest completed project by Cadbury and at the same time the company's most modern facility in the region. It manufactures products known and sold all over Europe, including brands like Trident, Stimorol, V6 and Hollywood.
