# HUUSKES, NETHERLANDS Enschede

### HUUSKES Netherlands

Founded in 1956, Huuskes originally delivered meat products in Enschede and the surrounding area. Today, its head office is still based in Enschede and it also has several plants in The Netherlands based at Nijkerk, Beuningen, Winschoten, Apeldoorn, Oldenzaal which in total employ 800 people.

With a turnover of around 100-million Euros, Huuskes product range has expanded greatly over the decades and it now includes a comprehensive assortment of chilled, fresh, frozen and convenience products. The company's manufacturing processes adhere to the quality standards set by ISO9001, HACCP and Skal, and its customers include catering establishments, hospitality companies and care institutions.

The core principles of Huuskes are to make fresh products and offer a high level of delivery reliability. They are their own butcher and they process vegetables, fruit, meat, cheese and make meals in their modern convenience kitchens so they can deliver a complete package for this customers.

The philosophy of Huuskes is "nature is our supplier".

ACO was asked to provide a bespoke solution for the refurbishment of Huuskes commercial kitchen area.

## Project information

|                     |  |
|---------------------|--|
| Project description | <p><b>ACO Holland created special layers within the channel enabling the gratings to sit (but not be fixed) inside the channel. ACO also provided several slip resistant gratings for the refurbishment of existing (non-ACO) channels. We delivered ten slip resistant gratings for Huuskes Enschede to use with Blücher channels, avoiding the need to remove the existing Blücher channels from the floor. Photos will follow seperately.</b></p> |
